HELP! In case of Accidents.

Drowning. 1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach and lifting it by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils and pressing the "Adam's apple" back (so as to close entrance to stomach), direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. **DON'T GIVE UP!** People have been saved after hours of patient, vigorous effort. 8. When breathing begins, get patient into a warm bed, give warm drinks, or spirits in tea-spoonfuls, fresh air and quiet.

Burns and Scalds. Cover with Cooking Soda and lay wet cloths over it. Whites of Eggs and Olive Oil. Olive or Linseed Oil, plain or mixed with Chalk or Whiting.

Lightning. Dash cold water over a person struck.

Sunstroke. Loosen clothing. Get patient into shade, and apply ice-cold water to head.

Mad Dog or Snake Bite. Tie cord tight above wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife.

Venomous Insects' Stings, etc. Apply weak Ammonia, Oil, Salt Water, or Iodine.

Fainting. Place flat on back; allow fresh air and sprinkle with water.

Tests of Death. Hold mirror to mouth. If living, moisture will gather. Push pin into flesh. If dead, the hole will remain, if alive, it will close up.

Cinders in the Eye. Roll soft paper up like a lamp lighter and wet the tip to remove, or use a medicine dropper to draw it out. Rub the other eye.

Fire in one's Clothing. *Don't run*—especially not down stairs or out of doors. Roll on carpet, or wrap in woolen rug or blanket. Keep the head down, so as not to inhale flame.

Fire in a Building. Crawl on the floor. The clearest air is the lowest in the room. Cover head with a woolen wrap, wet if possible. Cut holes for the eyes. *Don't get excited.*

Fire in Kerosene. *Don't use water*, it will spread the flames. Dirt, sand or flour is the best extinguisher; or smother with woolen rug, table-cloth or carpet.

Suffocation from inhaling Burning-Gas. Get into the fresh air as soon as possible and lie down. Keep warm. Take Ammonia, —twenty drops to a tumbler of water, at frequent intervals.

ANTIDOTES FOR POISONS.

First. Send for a Physician.

Second. INDUCE VOMITING, by tickling throat with feather or finger, drinking hot water or strong Mustard and water. Swallow Sweet Oil or whites of Eggs.

Acids are antidotes for ALKALIES, and *vice versa*

1857

William Goodell whom we saw in New York, was of good size and a good looking elderly man, of dignified deportment, very natural, he sent (W. J. Connor) his paper a year, the "Radical Abolitionist," afterwards, "The Principia." He was a very able writer. Licensed as a preacher, ^{at, but not ordained}

Lewis Tappan is a stout-built man, of sandy complexion. He is a good-natured looking man. He is spirited, somewhat jovial in his manner, and talks freely. He is a whole-souled sort of a fellow. S. S. Jocelyn was a spare, tall, sober looking man, quite friendly and truly obliging.

Tappan told an anecdote of himself and a colored man (lecturer perhaps) that some abolitionist thought ought ought to sleep together, as they lodged at his house! I forget how they came out.

George Thompson, a missionary from the American Board, was a pleasant modest kind of a man. His conversation was pleasant. I learned the following anecdote of him: At Good Hope Mission, (now Bonthe), Sherbro Island, they had a refractory boy, that the natives said ought to be flogged. But Thompson said No. He would be flogged instead of the boy. So he was flogged! The boy was still stubborn. But a few days later, one evening he came to Thompson asked him to go with him to the Chapel, which he did, and there he told the Lord how mean he had been, and implored divine forgiveness.

Diary of 1858.

Feb. 6, The ground is frozen
not over two inches deep.

" 7, It rains to day and
carries off last night's snow.

Feb. 5 Connor came to the close
of my school and the meeting
of Sublimity Board. Had a
good close. He brought ^{very} ~~many~~ ^{many} letters.

May 31, My term of school closed
at Sublimity. There
followed a slight measles
scar which soon passed away.
Warm weather came about
June 1st.

June 12th, 1858.

In my letter of June 12th, 1858,
I tell of visiting Harriet Helm
on my way from Conference;
her health is usual, and
her children have whoop-
ing cough; a letter from her
sister Martha spoke of her
having Typhoid Pneumonia.
Martha lived near Milroy, Ind.

I taught three months school at New Salem, six miles south-east of Rushville, Ind. I began Jan. 2nd. Some large scholars were insubordinate, and injured the discipline of the school.		

Here my wife and I were very happy. I preached frequently. In April, I removed to Andersonville, and there taught a summer school at Jeff's corner. I found the school less pleasant than the one in 1855. After the school was out, I went with my wife on a visit to Grant County, Indiana, for three weeks.

I went on to Conference at Williamsburg, where we boarded at Benjamin Harris's, she Mattie, being a Hartsville student and roommate of my wife's. ^{her program} I served as assistant secretary of the annual conference. At this conference, there were almost uniform failures to preach, except Bishops David Edwards. I evaded preaching, and got Rev. Dr. Flickinger to preach for me at Greensboro, then Washington.

The conference assigned me to Marion Circuit, and the next month, I moved to my farm in Grant County, four miles east of Fairmount. To the farm, I moved by wagon, John P. Freeman being a teamster. On the way, John P. Freeman staid at the house of the uncle of his future wife, Robert Clark, on the north bank of the Hillock while we staid at Mr. Joseph Bowen's on the south-side. We reached our home next day. This is introductory to some notes on my time and labors on the new Circuit, and events connected therewith. I had on Marion

I went on a visit or errand to Franklin and Fayette Counties, and here let me begin my notes: Called at Mother Holley's crazy daughter on the trip at Fairmount, Pa. I went home by Chesterfield, arriving at home through the rain. I note that Joseph and Eliza Minton lost their babe, the day I got home, and John Richards preached its funeral from 1 Pet. 1, 2. He said he had often doubted his own election. "This babe was a

I said that Susan had had no chills for five weeks; that Reuchlin grows finely; that uncle William Reeder's had a great big girl, just two weeks old; that my Cousin Margaret is at Nottingham, and Essie is now at Smith's. Yet I alone started but a boy met me with a letter telling me of his burial. At the time of his death, we had a meeting on a circuit, with six accessions to the Church. <u>November 27, 1861</u>, I wrote of John Broddy's visit before and November 27th. I wrote Dec. 23, that our County, Wayne, was cleared of a draft. Susan had rheumatism of her neck and shoulders.

John Braden, Eliza and aunt Mary Brown, were expected home from Grant County, that evening. And Eletharine Eliza Brown was soon to go to Mt. Vernon, Ohio, to teach in the Academy.
